

MERCY COLLEGE SPEECH AND HEARING CENTER

A center for excellence in the treatment
of communication disorders

ABOUT THE CENTER

The Mercy College Speech and Hearing Center is located at our Dobbs Ferry Campus and has been providing services to the community for over 30 years. The Center provides comprehensive diagnostic evaluations and individualized therapy programs for people of all ages with disorders associated with speech, language, swallowing and /or hearing as well as those with intellectual disabilities.

The Center provides services for area residents as well as for the Mercy Community. Therapy follows the College schedule and is available during the fall, spring and summer semesters with convenient evening and Saturday hours.

The Mercy College Speech and Hearing Center does not discriminate with respect to race, creed, national origin, age, gender, sexual orientation, parental status or disability when evaluation and/or treating clients

FAST FACTS

- Evaluations are conducted on a one-on-one basis
- Treatment is conducted on a one-on-one basis or in small groups
- Therapy rooms are equipped with visual and auditory monitoring systems where family/caregivers directly observe sessions and consult with the clinical supervisors
- We participate with many insurance carriers. Please contact the Center directly for more information
- The Center is supervised by speech-language pathologists and audiologists who are licensed by the New York State Department of Education, and certified by the American Speech-Language-Hearing Association (ASHA)
