A PERSONAL MENTOR ON DAY ONE

From the moment students are accepted into Mercy College, they are assigned a personal mentor who advises and inspires them to reach their full potential. This is part of our nationally recognized Personalized Achievement Contract (PACT) Mentorship Program.

Our mentors are there for every part of the college experience from understanding financial aid and choosing the right major, to navigating degree requirements, registering for classes and tracking academic progress. They also empower students to develop leadership skills, plan their futures and take the actions needed to make their dreams a reality.
