

## TEACHER EDUCATION CERTIFICATIONS

Students considering a program of study that leads to certification in Teacher Education programs within the School of Education at Mercy College should contact the appropriate licensing agency in the state where they plan to practice for additional information.

Educational requirements include coursework and clinical experience tied to coursework. Note that even though a program may meet these requirements, individual students must also meet state- and program-specific requirements for admission to and completion of an educator preparation program, and any other state licensure requirements (e.g., testing, background checks) to be eligible for licensure. Please carefully read all requirements for the state you wished to be licensed in.

For example, a Middle Grades teaching certificate would not be accepted because Arizona does not have a Middle Grades teaching certificate of their own. The website also indicates that until the application and required documents are reviewed, there is no guarantee that out-of-state certifications will meet requirements under reciprocity rules. Students should refer to <a href="http://www.azed.gov/">http://www.azed.gov/</a> to determine whether the program meets the requirements for Arizona.

Graduates of these programs who have completed New York State teacher certification requirements are eligible for Colorado certification as teachers in their comparable certification areas. *Educator licenses do not directly “transfer” to Colorado across state lines. If you hold a valid license issued by another state that carries an identical endorsement to one issued by Colorado AND have three years’ post-preparation, full-time licensed experience in that state within the past seven, Colorado may issue a professional license with the identical endorsement requested. If you do not meet ALL of the requirements outlined above, Colorado is required to evaluate a candidate’s application for the content area(s) of preparation, as verified on an approved program verification form, if we issue a comparable or equivalent endorsement. If not, we certainly will work with you to determine the appropriate content area(s). Other endorsements may be added upon application and meeting the requirements for each. The need to take a content exam will be determined upon review of a completed application so that your degree, previous test information and educator preparation program(s) may be considered.* Students should refer to <a href="https://www.cde.state.co.us/">https://www.cde.state.co.us/</a> to determine whether the program meets the requirements for Colorado.
